

Starfall into the Darkstryder Campaign

Introduction

Sarne and his Forces

- Sarne is just starting his retreat. His Fleet is in shambles and trying to regroup. They have been this way for a few days. While he is retreating, he is making his “Plan B”. To establish a new counterattack force at the Darkstryder planet.

The Farstar

- The *Farstar* is called to establish a command base in the Kathol Outback and continue on with the pursuit of Sarne.

The Command Base on Timbra Ott

- The primary job of the *Farstar* with respect to the command base is to negotiate with the locals and establish good relations so that the New Republic can establish a base there.
- After the *Farstar* reports they have permission, the supplies will be sent by convoy from Galtea.
- As a side assignment, the *Farstar* is expected to transport a man to find his daughter.

Sir Walen Blissek - Knight of House Karadol and formerly Oon Tien Ship Yards Lead Engineer

- This man is important to the New Republic. He is the head engineer of the Oon Tien shipyards, who has agreed to give the NR all the information he has on Darkstryder and the things Sarne did with it to modify ships. However, he has a condition. He somehow had gotten word that his daughter is dying and he must see her before she dies. She was last seen in the Timbra Ott system.
- Walen stopped cooperating once he realized that Darkstryder was also being used to control the minds of Sarne’s grunts. He was almost killed in an “accident” that was almost too convenient, but was saved by a House Shador faction, who hid him until Oon Tien was liberated.
- Sarne then recruited Blissek’s daughter to replace her father.

Lady Lira Wassel, Lady of House Karadol and Head of Imperial Development at Oon Tien Shipyards

- Lady Lira Wassel is his daughter, which he does not reveal right away. She is actually also an engineer, and learned everything she knows from her father. She continued to help Sarne and the Empire, became a loyal New Orderist, and married the Imperial Regional Governor of the Stellar Southern Region of Kathol, Governor Denn Wassel of House Karadol.

Imperial Governor Denn Wassel, Lord Wassel in House Karadol, Imperial Governor of the Stellar Southern Rim Region.

- Gov. Wassel is an ambitious individual and very familiar with Sarne’s plan. They are almost like brothers. Some suspect he was cloned from Sarne, at least their souls were. They look nothing alike.
- The *Farstar* will transport him and assign a team to protect him and take him anywhere he needs to go to find his daughter

The Plot

- The *Starfall* plot, except that the fleet the *Starfall* will destroy is the supply convoy bound for Timbra Ott.

- The Victory Class SD is one from the Brak sector under the command of Captain Kolack. He has been assigned by the Governor and Sarne to find Walen and bring him to the Darkstryder planet.
- On the way, the SD get word there is a supply convoy heading to Timbra Ott. They make plans to head towards it to destroy it.
- The SD is then attacked by the - [*Aing-Ti Monks or the Starwolves, or the Mandalorans*] - which put it in the state for the adventure
- [The Adventure as written, with slight modifications]
- The SD will be set to self destruct just as the convoy drops out of hyperspace.

:Effective Immediately

Reading on the bridge indicate 67% power loss throughout the ship. Two of six power cells operational. Main and Auxiliary reflector screen generators destroyed. Power available to remaining weapons systems nominal. Starfighter complement 97% depleted. Crew casualties at 54%.

It is therefore my decision to reroute all available power to engine control core. Main and auxiliary hyperdrive and sublight engines to be rigged for self-destruct. Three-hour delay posture. Implosion sequence will be programmed from bridge and transmitted for reception and implementation by you at engine control core. Clear engine command of all personal not essential to this operation. This is a priority command. I want no leaks. I am holding you personally responsible for the success of this operation.
